

LANDING A JOB Testimonials

Ken was able to find that button, that once pushed, allowed me to free myself from many preconceived ideas. It truly opened my mind; it is difficult to put in words what Ken did. His enthusiasm, his deep knowledge of what living life is really about is contagious. I came out of training with a complete new way of looking at my future (work-wise), I changed my approach and allowed the newfound knowledge to guide me. Needless to say, I found the work that I love, and did it in 2 weeks. Thanks to Ken, I, dig my work.

I have been laid off since January. After your workshop I used your notes and revised my resume and sent it to 1 company and just got called from them for an interview next Thursday. You've already helped!

~ Rachanda Miller – Austin, TX **....and 22 days later:**

You asked that I keep you posted. Today was my first day on the job that I landed using your techniques. As I told you before I got an interview to the first and only company I got to send the new and improved resume to, landed an interview, used the interview techniques landed a second interview and ended up getting the job, yay!!! Thanks for all your help. I have already begun recommending you to friends.

I wanted to thank you for the wonderful seminar. Your words really resonated with me and I am proud to say that I now have a full-time job. I am working remotely from my home office in Austin for a spectacular company with offices in Boston and Baltimore. Your seminar gave me the confidence and optimism I needed at a time when I needed it most! The company created a job for me and I had a part in identifying my title -- Director of Momentum and Innovation. I couldn't be happier! Thank you for everything.

I just wanted to let you know that I accepted a job position on Thursday with my old company for more money. I wanted to thank you and your workshop for two very important suggestions. Writing out your accomplishments and placing them on top of your resume; and **telling** the class to call the hiring manager. If I had not called the hiring manager and faxed my resume directly, I know I would have been just one more resume in the system. I participated in your class on December 5th and I have accepted an offer on December 17th.

From the bottom of my heart thank you for your knowledge and support. I look forward to taking other workshops from you in the future.

CHANGING CAREERS Testimonials

"Ken literally changed my life. He helped me realize what I wanted out of life, and how to go after it. And he made it all seem so simple. I have witnessed him do the same things with others. He brings about that "Aha" moment."

~ Rebecca Pate – Austin, TX

"Working with Ken is like hiring your own personal cheerleader. He not only shares great information, but his enthusiasm adds so much energy to the conversation you can't help but be excited about what's next in your career. He has a way of saying exactly what you need to hear when you need to hear it. I've always believed that there was something else I should be doing in this world, but I just couldn't imagine what that was and had no idea how to get started... now I'm finally on the road to discovering my true calling and it all began with a list he encouraged me to make. Through this process I've learned that it's not our job to go through this transformation alone. Ken's encouragement has led to some amazing personal discoveries – I am thankful to have him as my running partner!"

~ Bobbi Gregory – Sacramento, CA

"You have but to spend 5 min. with Ken to know he is indeed an authentic catalyst. He's brimming with sound logic, insightful ideas, kind sarcasm, and off-the-charts exuberance. Ken speaks and shares from the genuineness of his big heart. He's having the time of his life pursuing his passion, tapping-into his special gifts, and doing what he loves. He'll compassionately inspire, prompt, and practically prod you to do the same. Like me, you'll be eternally grateful to him for doing so. "
